Washington, DC 20231

Sir:

In accordance with MPEP 609 and 37 C.F.R. §§ 1.56, 1.97 and 1.98, Applicant brings the references listed on the attached PTO-1449-Form to the Examiner's attention and requests that they be considered and made of record in this application. Copies of the non-U.S. patents are attached.

Since this application was filed after June 30, 2003, the U.S. Patent and Trademark Office waives the requirement under 37 C.F.R. 1.98 (a) (2) (i) for submitting a copy of each cited U.S. Patent and each U.S. patent application publication.

I hereby certify that each item of information in the Information Disclosure Statement filed herewith was cited for the first time in any communication from a foreign patent office in any counterpart foreign application not more than three months prior to the filing of this information disclosure statement. A copy of European Search Report of the corresponding European Application No. 04002356.6 is attached hereto.

No fee is believed to be required in view of the above certification. However, Applicant authorizes the Commissioner of Patents and Trademarks to charge payment of the Petition fee Under 37 C.F.R. §1.17(p) *if required* and any other fees associated with this

communication or credit any overpayment to Deposit Account No. 50-1836. A duplicate copy of this Statement is enclosed for that purpose.

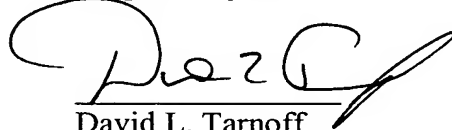

French Patent Publication No. 2317108 appears to disclose a rear bicycle hub having a plurality of sprockets with a dust cover adjacent the outer bearings. The European Search Report indicated that pages 3-7 were relevant.

Japanese Laid-Open Patent Publication No. 56-135301 appears to disclose a rear bicycle hub with a dust cover 13 disposed between the hub shell and the sprocket. The European Search Report indicated that abstract and Figures 1 and 2 were relevant. An English abstract of this publication is provided to better understand this reference.
